

Age Group Report for 8.23.2014

LC Age Group Champs

- Nova overall champs – GATR had a very strong presence
- 619 swimmers 362 Female/ 257 Male
- 48 record breaking swims. 29 individual 19 relays
 - State Records: 8 individual - 9 relay
- Overall the meet ran very smoothly. John Stanley and his crew did a tremendous job handling the meet. Timelines were never stressed throughout the weekend.
- Chase Starts were utilized using the Odd / Even Heats method. Worked great and the athletes were on top of it throughout.

Zones Team Selection:

- While there will be a discussion at the AG Committee on the zone selection process, I felt it worked better than expected. Situations that arose after the fact were nothing new or something that the committees hadn't already discussed at length during the previous HOD meetings. Hearing that the coaching staff was full with alternates available and that all age groups were competitively filled tells me the process worked like it was designed. Going forward I feel we can make the application process and information available even sooner to give teams, coaches, and families additional time to make their decisions. This will be discussed at the committee level in Oct.

Summer Awards:

- The committee will address standardizing the meet event setup files. There was a few differences between scoring of a couple of the meets. I believe this was just a slight oversight in the meet setup files. One thought is to have the AG Committee prepare these event files for the LSC where meet hosts can use the same file or perhaps the Tech Planning Chair would take this on???
