

Hello All,

I will be unable to attend the conference call due to end of year school activities (yes we are still in school down here!) Here is my report:

Zone Team:

The zone application for athletes wishing to participate has been finalized, posted on the VSI Website and emailed out to all coaches and team contacts. Mary, Jessica, and Maureen will be monitoring the process with Mary handling the Paypal payments. The online form is by far the best option as all of those involved can view the document responses as they come in. The forms application is time stamped to show when it was submitted and with Mary handling the payments, we can easily see that the deadlines were met.

One thing that I think we may want to consider is being generous this first year with refunds as not only were we late in getting the information posted but we had people signup without knowing how much its going to cost each swimmer. I don't think families are naive in that this meet is cheap, but the final number may change the affordability of the meet. While I agree this policy needs to be rigid, I think we should be able to allow families to withdrawal without penalty once the final cost is posted which I believe will be very soon. Just my thought however...

Coaches for Zone Team: We will be working closely with the Coaches Committee to see to it our team is outfitted with coaches. To date: Two coaches have applied with the addition of one potential Head Coach Candidate.

Awards have been ordered for our Champ meets.

Thanks

Scott
