

Registration Report

October 3, 2007

There are a total of 6058 athletes, 988 non-athletes and 54 clubs. The athlete total includes 184 seasonal athletes, and the club includes 1 seasonal club. These are the 2007 figures.

The athlete total is high due to the transfer of 162 athletes from a Potomac Valley team. We probably have not actually registered as many as last year. But until all the transfers are in a final figure will not be available.

For 2008 we have had 2 new clubs register, STAT in Stafford and PATS in the Bristow/Manassas area. There is also a club in the Staunton area that is pending.

There was a USAS convention in California last week. I attended the Registration meetings. Information was available concerning the new posting of Div I NCAA times. They will be handled by the staff at USA Swimming as will not appear in our data base. These times are for NCAA use only. Most of the other information was an update of the SWIMS registration program, and various methods of handling any registration problems that may arise. I also worked for USAS (United States Aquatic Sports) at their registration desk and helped out with the balloting for the election. I attended the Zone meetings and House of Delegates meetings.
